

Systems Engineering Advancement Research Initiative

2010 SEARi Annual Research Summit

Participant Feedback and Recommendation for Research

Dr. Donna H. Rhodes (*Director and Principal Research Scientist, SEARi*)

October 19, 2010

Cambridge, MA

Massachusetts Institute of Technology

Engineering Systems Division

Feedback on Summit

- Open forum
 - Overall or specific impressions/opinions
- Desired feedback
 - What do you see as the role of multi-epoch thinking in your organization?
 - What similar or complementary approaches do you currently use for developing dynamic strategies?
 - What types of uncertainties need to be tackled using these approaches?
 - Critical problems not discussed today
- Suggestions for future research

Please continue to interact with SEARI after the summit!
